Skills

Programming Languages: Java • JavaScript • TypeScript

Frontend: React • Angular • React Native • Redux Toolkit • React Query • Material UI • Tailwind CSS

Backend: Spring Boot • Microservices • REST APIs • JPA/Hibernate

Databases: SQL (MySQL, PostgreSQL) • MongoDB • Redis

Cloud & DevOps: Docker • Kubernetes • AWS • Git • GitHub Actions • Maven • Gradle

Architecture: Micro Frontends • Webpack Module Federation • Rollup • Distributed Systems

AI & LLM: OpenAI API • Prompt Engineering • LangGraph • LlamaIndex • MCP • LangSmith • LangFuse

Awards

GDNA Genius Award 2023
GDNA – Aditya Birla Group
Awarded for designing an innovative canvas-based image annotation solution improving backend image-processing workflows.

Tamil

Interests

Artificial Intelligence

System Design

Badminton

Senior Software Engineer with 5+ years of experience building scalable enterprise applications using **React, Java, Spring Boot, and Microservices**. Experienced in designing REST APIs, micro-frontend architectures, and AI-powered applications using LLMs, LangGraph, Prompt Engineering, and MCP. Proficient in **Docker, GitHub Actions, and cloud-native development**, delivering scalable, high-performance software solutions.

Education

Bharathiar University Master of Science (M.Sc.)
Information Technology
Coimbatore, Tamil Nadu, India • Jun 2021 – Jun 2023

Sri Krishna Adithya College of Arts and Science
Bachelor of Science (B.Sc.)
Information Technology
Coimbatore, Tamil Nadu, India • Jun 2017 – Apr 2020

Experience

SymphonyAI Bangalore
Software Engineer February 2025 – Present

- Designed and developed scalable full-stack applications using **React, Java, Spring Boot, and Microservices** for enterprise AI platforms.
- Architected **micro-frontend solutions** using React and Webpack Module Federation for modular enterprise applications.
- Engineered secure **RESTful APIs** and backend services using **PostgreSQL** to support scalable enterprise workflows.
- Integrated **AI capabilities** using LLMs, LangGraph, MCP, and Prompt Engineering to build intelligent platform features.
- Containerized backend services using **Docker** and contributed to **Kubernetes** deployment environments.
- Automated build, testing, and deployment pipelines using **GitHub Actions** and CI/CD best practices.
- Collaborated with cross-functional teams to improve application architecture, code quality, performance, and maintainability.

TechConative Chennai
Software Engineer (Client: SymphonyAI) March 2024 – February 2025

- Developed and maintained enterprise applications for SymphonyAI using React, Java, and Spring Boot in an Agile environment.
- Delivered production features, platform enhancements, and critical bug fixes supporting enterprise software releases.

Aditya Birla Group Bangalore
Associate Product Engineer November 2022 – February 2024

- Developed **AI-powered enterprise applications** using React, Redux Toolkit, and interactive analytics dashboards.
- Integrated frontend applications with optimized **REST APIs** (React Query) and reusable UI components.
- Developed internal platforms enabling data scientists to interact with **machine learning models** and visualize analytical insights.

CG-VAK Software & Exports Coimbatore
Software Engineer September 2020 – November 2022

- Developed responsive web and mobile applications using **React, Angular, and React Native** with REST API integrations.
- Built reusable UI components while improving application performance, maintainability, and overall user experience.
